

# ADAIKALARAJ SELVARAJ

Mechanical Design Engineer | Manufacturing Engineer | CNC Programmer

Ajman, UAE | +971 54 335 1693 | adaikalaraj1993@gmail.com | DOB: 27 April 1993

## PROFESSIONAL SUMMARY

Results-driven Mechanical Design Engineer with 7+ years of manufacturing-focused expertise in sheet-metal design, CAD/CAM engineering, CNC programming, fabrication documentation, production planning, and HVAC-related sheet-metal systems. Proven track record in optimizing material utilization, reducing engineering errors, and supporting efficient production flow.

## TECHNICAL SKILLS & SOFTWARE PROFICIENCY

- |                                     |                                                                |
|-------------------------------------|----------------------------------------------------------------|
| • <b>AutoCAD 2D &amp; 3D (95%):</b> | Drafting, precision sheet-metal drawings, design documentation |
| • <b>SolidWorks (88%):</b>          | Mechanical product design & 3D parametric modelling            |
| • <b>Lantek Expert (92%):</b>       | Nesting, turret punch programming & manufacturing optimization |
| • <b>CypCut (90%):</b>              | CNC fiber laser cutting programming & machine support          |
| • <b>Production Docs (94%):</b>     | BOM preparation, production records, MS Office reports         |

## PROFESSIONAL WORK EXPERIENCE

### Metal Fascination LLC

2019 – Present | Ajman, UAE

Role: Mechanical Design Engineer | Manufacturing Engineer | CNC Programmer

- Design precision sheet-metal components and mechanical products using AutoCAD and SolidWorks.
- Prepare fabrication, production, manufacturing, and assembly drawings for production teams.
- Develop CNC programs for fiber laser and CNC turret punch machines using Lantek Expert.
- Generate CNC laser cutting programs through CypCut for efficient shop-floor execution.
- Design HVAC sheet-metal systems, including AHU and FAHU-related components.
- Perform estimation, nesting, and material optimization to reduce manufacturing cost and sheet waste.
- Prepare BOMs (Bill of Materials), engineering documentation, and production records.
- Coordinate seamlessly with production, procurement, QA/QC, and sales engineering teams.
- Support process improvement, production planning, and preventive maintenance activities.
- Maintain strict compliance with drawings, customer specifications, and ISO documentation standards.

## EDUCATION & QUALIFICATIONS

### BE in Mechanical Engineering

2013 – 2017

Hindusthan College of Engineering and Technology | Grade: 7.0 / 10

### Diploma in Automobile Engineering

2011 – 2013

Thanthai Rover Institute of Polytechnic

## CERTIFICATIONS & LANGUAGES

- Certifications: Post Graduate Diploma in Industrial Robotics & Automation
- Languages: English, Hindi, Tamil, Malayalam, Telugu
